

DUNCHIDEOCK PARISH COUNCIL

Annex A to Minutes of the Extraordinary meeting held on 24th November 2020

Application Ref: 20/01953/HOU

Location: Webberton Cottage, Dunchideock

Proposal: Single storey extension

Applicant: Mr & Mrs Wallis

Parish Council response to 20/01953/HOU

The application is for a single storey extension to Webberton Cottage. The written planning application itself does not clearly state the difference in material in the 'wall,' other than being described as rendered white. It would appear from the planning drawings [below] that the concept is to primarily have a glass fronted design, with wood and aluminium (or white plastic) between. The roof will be single membrane or 'fibreglass lead grey'. The proposed extension is different in character to the traditional cottage itself. However, considering other similar properties in the area, we think it would be consistent with this particular area of Dunchideock taken as a whole.

We therefore **support** the application.
